

DID YOU KNOW THAT EVERHARD ALSO DOES ELECTRONIC ASSEMBLY?

OUR SPECIALTIES

- Low volume products that don't fit in with your regular production
- Panel assemblies and wire harnesses
- Older products or assemblies for your service division requirements

See the reverse side for a few of the assemblies Everhard has manufactured this year.

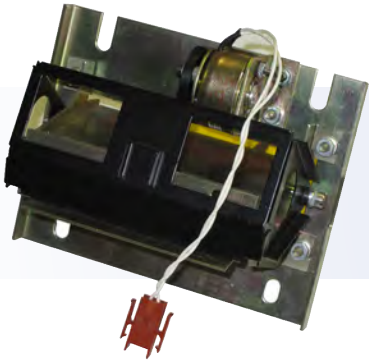

OUR EXPERIENCE

For more than 25 years Everhard Products has also been manufacturing and assembling electronic products, sub-assemblies and kitted products for many of our customers.

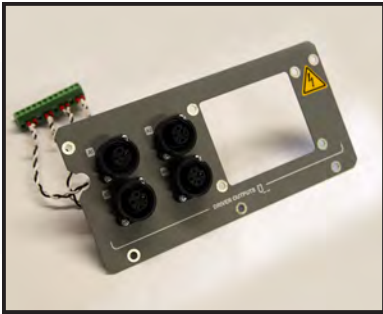

Our sophisticated production control system allows our team to track every aspect of your assembled products. From material planning and tracking of project components to labor tracking and inspection, Everhard has the expertise to deliver your products on time and to your specifications.
