

ERGO MILL BLADE HANDLE

Soft-grip Ergonomic Mill Blade Handle

The handle's soft-grip surface fits comfortably in your hand, especially over extended use. Handle is lightweight, die-cast alloy. Changing and adjusting blades is quick and easy thanks to the slotted set screw. Handle also includes thumb bolster for safety.

Features:

- Thumb bolster for a sure grip and added safety!
- Slotted set screw for quick and easy blade adjustment!
- Soft-grip, ergonomic handle for decreased user fatigue!
- 3 different handles available to fit different sized blades
